Summary

Junior DevOps Engineer with hands-on experience in building and deploying cloud-based applications using AWS, Docker, and Terraform.

Experienced in creating CI/CD pipelines, containerization, and infrastructure automation.

Strong engineering background with a focus on reliability, system troubleshooting, and automation.

Skills

- Cloud: AWS (EC2, RDS)
- Containers: Docker, Docker Compose, Kubernetes (basic)
- IaC: Terraform
- CI/CD: GitHub Actions
- OS: Linux (Ubuntu)
- Scripting: Bash, Python (basic)
- Databases: PostgreSQL, MySQL
- Networking: basic networking, monitoring scripts
- Version Control: Git

Projects

DevOps App (Docker + Nginx + CI/CD + Rollback)

- Built a containerized application with Nginx load balancing
 - Implemented CI/CD pipeline using GitHub Actions
 - Configured automatic rollback based on health checks
-

Systemd Service Monitoring Tool (Python)

- Created and configured a systemd service for network monitoring
 - Implemented automatic restart and logging mechanisms
 - Used journalctl for debugging and analyzing service logs
-

Multi-DB Docker Terraform App

- Designed multi-container infrastructure using Docker and Terraform
 - Deployed parallel environments with MySQL and SQLite
 - Applied Infrastructure as Code principles
-

Flask + AWS RDS Project

- Developed Flask API with PostgreSQL (AWS RDS)
 - Deployed application on AWS EC2
 - Containerized using Do
-

WordPress DevOps Setup

- Deployed WordPress using Docker and MySQL
- Configured CI/CD pipeline with GitHub Actions
- Automated deployment to AWS EC2

Linux / Bash Tools

- Developed scripts for network monitoring
 - Built MySQL automation tools
 - Created CLI utilities for system checks
-

Experience

Junior DevOps Engineer (Freelance / Personal Projects)

2024 – Present

- Built and deployed cloud applications using AWS, Docker, and Terraform
 - Implemented CI/CD pipelines
 - Managed containerized environments
 - Automated infrastructure and deployment processes
-

Education

Bachelor's Degree in Energy Engineering
(Ukrainian Engineering Pedagogical Academy)

English

Reading technical documentation
